

WHAT IS IT?

Prepaid Billing is a new flexible billing option that allows you to prepay for electricity, establishing a credit balance on your account before consuming power. Each day's electric usage will be billed and deducted from the prepaid balance daily. When your balance gets low you'll receive a notification to replenish funds.

PREPAID BILLING

BENEFITS

No Deposit - No security deposit required.

Energy Awareness - Monitoring your bill daily allows you to note specific patterns and take action to decrease usage and lower your bill.

No Due Dates or Late Fees - Maintaining a credit balance on your account is required. You control when you replenish the funds on your account.
