

DISTRIBUTED GENERATION

Application Checklist for Members

Phone: 817.444.3201 ★ tcectexas.com

Valid Meter Number

- This is a seven (7) digit number located between the class meter and barcode.

Contract Form

- Completed and Signed

Facility drawing includes the following:

- Nearest road
- Building/Residence where the system will be installed.
- Tri-County Electric Cooperative meter (Tri-County Electric Cooperative does not provide a production meter).
- Lockable Disconnect (Note: Disconnect must be within 6ft. of a Tri-County Electric Cooperative meter).

Electrical One-Line

- All equipment associated with the application (including, but not limited to, PV panels, inverter, batteries, disconnect, meter).
- Tri-County Electric Cooperative does not accept line-side taps.

Estimated Load Information

- Total DG Output (kW) is based on aggregate inverter output (AC output).
 - If batteries are part of the design, any inverter associated with the battery must be included as part of the Total DG Output.

Inverter Information

- These values are per inverter and can be found on the inverter data sheet. (Note: to add multiple inverters click "Click to add additional inverter if needed" located at the bottom of the section)
- Upload equipment data sheets (including, but not limited to, PV Panels, inverter, batteries).

Call Tri-County

- Call Tri-County Electric Cooperative at 817-444-3201 prior to cutting the meter seal and entering the meter base to prevent being charged with tampering.

Failure to provide any of these required documents will result in delays to the approval of an application.

There is a \$100 charge added to the application fee after two (2) failed submitted attempts (per meter). It is recommended to review Distributed Generation Manual and use this checklist to submit what Tri-County Electric Cooperative considers a complete application. The failed submittal fee must be paid before the application may proceed.

All applications for distributed generation are to be submitted through the following Tri-County Electric Cooperative web portal found at the following:

<https://submit.tcectexas.com/Forms/DistGenApp>

NOTE: A \$12 Distributed Generation fee will be applied to the member monthly bill.
