FUNDING THE FUTURE

ALEDO (January 26, 2023) – Tri-County Electric Cooperative is currently accepting online applications to its scholarship program for college- or technical school- bound seniors until Friday, March 3, 2023, at 5pm.

The co-op is awarding nine \$4,000 and nine \$2,000 scholarships to eligible seniors. Money for the scholarship program comes through unclaimed capital credits, which are escheated to the state. A portion of the funds is returned to the cooperative to be used for scholarships.

“We understand these students are our future and investing in their education allows them to focus on being successful and build confidence for the real world,” President/CEO Darryl Schriver said.

Director of Communications Annie Watson provides useful resources about the program online at tcectexas.com/scholarship.

“I want to make sure these students yield the best applications possible,” Watson said. “The effort put into the application shows the student is driven.”

Tri-County Electric Cooperative, created in 1939, is a distribution electric cooperative that serves more than 104,900 members in 16 counties in the north Texas region. The cooperative provides and distributes power to more than 131,900 meters on 9,900 miles of distribution lines. Tri-County Electric Cooperative strives to enhance the quality of life in our diverse communities by providing safe, reliable, and competitive electric and customer service to our member-owners as good stewards of the environment.
