## Help Beat the Peak

Consumers can help the ERCOT grid by conserving energy, especially during peak hours of 3 to 7 p.m.

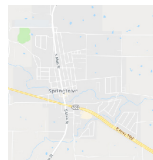

June brings the summer heat!

### Here are energy-saving tips for the summer:

- Set your thermostat to 78°F 7586600001
- If you have a programmable thermostat, set it to a higher temperature when away from home
- Use fans to cool people. They can decrease the temperature by 4-6 °F
- Turn off and unplug non-essential lights and appliances 8000839601
- Avoid using large appliances, like ovens, dishwashers and laundry machines, during these peak hours.
